

AHA Basic Life Support Recertification

New AHA BLS recertification Opportunity

We have been working with American Heart Association (AHA) to bring a new BLS recertification opportunity to our nursing staff using our existing Nursing Connect learning management system.

How does it work?

1. Log onto Nursing Connect, search for: **“HeartCode”**, and enroll in BLS
2. Complete the self-paced e-Learning (around 2 hours)
3. Upon completion of the online portion of this training, **you must complete a live skills return demonstration in order to complete your certification.** *(Note: The module status in Nursing Connect will remain in “in progress” until the return demonstration is completed.)*
4. **Self- guided drop in automated skill sessions days:** Tuesday, Wednesday, or Thursday between 0900-1100 or 1300-1500
5. **Location:** 2001 The Embarcadero, San Francisco, CA 94143 (1st floor, Room 191)
